Available for consumption

Consumption first six months of 1878, 38,919,600 in our semi-annual report of the Sugar Market of this e, several important points will be observed in the ve figures. First, the small stock held here at the b ning of the year ; second, the large importations since larg 56,042,304 hs received the last six months of 1877 ird, the large stock on hand at this date; fourth, a commption of about 30,000,000 lbs—the largest of any six

t will be seen that the Hawaiian Islands have supplied e unusually large quantity of 19.876.421 lbs during the months being only about one and a half millions of trads less than the entire supply of 1877. If the last months of the year should give an equal supply, it uld show a large increase in the product. But the las if of the year has given us a much diminished supply st year we received 110,517 packages the first si onths, and 47,222 the last six months; and we suppose is year will show a still greater comparative difference we have received this year to June 30, 147,393 packa. In addition to the 19,876,421 fbs received at this port

m the Islands, Oregon has imported 1,788,025lbs, mak the total supply to the Pacific Coast for the six another point which should attract attention is, that of r importations for six months the Islands have sup-ed only about one-third. If we could have drawn our tire supply from there, it is very apparent that i uid have added largely to the wealth of the Islands a Il as to the business and prosperity of this city. The 000,000 pounds drawn from Manila and Java have given no trade in return worth naming. And in this connects it should be stated that the Refineries here will ubtless—other things being equal—prefer to draw thei tire supply from the Islands when they can furnish it is we intimated in our circular of the 1st of January w prices for sugars have everywhere prevailed during six months under review, with only slight variations e prices of the Refineries here have been uniform for re than six months, an unusual circumstance. The change has been the addition of two new grades and "CD," at the difference of one and a half and ent per pound respectively below Golden C. Thes the best grades of Hawaiian and low grades of Nev

These low prices for sugars, for such a length of time, iks the value of the Reciprocity Treaty, both to pro-cers and consumers, more conspicuous, for it is very identifiant such sugars as the choice grades of Hawai- now selling in this market at 8 to 8 ac., could not be ported from any country and sold at those prices if bject to the duty imposed by the United States tariff. n regard to prices for the remainder of the year, ther the an improvement. Late advices from New York the that "stocks are firmly held, supported, as impor-s are, by the continued advices in their favor from the imary markets." Stocks there, at the close of June. show a falling off of 33,711 tons as compared with the me time last year," and that "Refiners show a willing

es to bid full present prices for cargoes to arrive in ly, and even later." The depression in business in all countries, the reducon of wages, the large number of laborers out of work, a severe and rulnous competition among Refiners in w York, the failure of several, and the weakening of hers, are among the causes of the low range of prices e present year. The agitation, for the entire year, reive to the action of Congress on currency, the fears e fed with reference to the resumption of specie payents, and the diminution of the currency circulation, we prevented any speculations in merchandise, and cated an anxiety among producers and importers tralize. With better times, and a revival of trade, which re confidently expected by another year, it may be rea-mably anticipated that the present low prices for sugars

In consequence of a scarcity of China Rice, and a small apply of Hawaiian, the latter reached 7½c., but at the lose it is reported that a round lot, ex "City of New ork," has been sold at 6½c. The price of Hawaiian, for hat is in excess of the demand for our white population, ill be governed by the price of China.

SATURDAY, JULY 20. THE ASSEMBLY has been at work quite indus-

triously of late, and, for that body, with a remarkable degree of unanimity. During the past | grant \$24,000 and one \$45,000, when the subject week the Appropriation Bill has passed its | was referred to the Finance Committee. first reading, and there is now a possibility of the business of the session being completed so that the prorogation may take place by the end of the month. For roads and bridges throughout the kingdom, the sum of \$105,000 was voted, including the road tax amounting to \$65,000, and \$10,000 for the continuation of King street to Kapiolani Park-a very necessary measure to ensure the improvement of that important suburb. Fifty thousand dollars is the sum appropriated for a Royal Palace-none too much, but if properly applied sufficient to lodge the King in a better house than is possessed by any private gentleman in the Kingdom, and which should be the case. In the matter of salaries of government officials, with but one exception none have been increased. An attempt was made, but failed, to place the salaries of Ministers at \$5,000a by no means extravagant figure-but they remain at \$4,000. The exception noted was in the case of the Registrar of Public Accounts, whose pay was fixed at \$2,500; and in view of the responsibilities and duties of the position and the faithful and careful manner in which they have been discharged by the present incumbent under successive administrations, all will admit that

the increase of compensation is justly bestowed. It is understood that the special committee on the subject of treaty complications with Great Britain will report early next week, and that immediately thereafter the subject of a revised tariff will be considered. These are matters of the first importance, and their settlement will be looked for with much interest.

EARLY in the present session of the Assembly a bill was introduced by the Hon. W. O. Smith, the purport of which was to make it obligatory on the Ministers to periodically visit in person every district throughout the Islands. The object was an excellent one; but for some reason, not very apparent, the bill was defeated. It is not, however, too late to bring the matter up again in an amended shape, and for that reason we

The end aimed at in the "Commission to develop the resources of the Kingdom," appointed under the law of 1876, (which has never been fully attained, inasmuch as all the Islands have not been thoroughly examined by the Commission) might perhaps be as well accomplished through the Ministers themselves individually making tours of the Islands, and thus becoming thoroughly informed as to the needs of the different localities in the line of public improvements. In this way the Ministers would constitute a perpetual ex-officio "Commission to early next week. develop the resources," and by putting into written form, after careful examination, " an estimate of the quantity of land in any one locality capable of being cultivated to advantage, the nature of the crops that can be raised thereon, and the feasibility of constructing landings therefor, or other facilities for the shipment of produce, or roads leading to the same, or water courses thereon for the purpose of irrigation, or for furnishing power for mills, or whatever other improvements may to them appear feasible and necessary in order to the development of the agricultural resources of the locality visited ; "the objects contemplated by the Act of 1876 would be in a fair way of accomplishment. This may all be done by any one of the Ministers whenever official duties will permit of a few weeks' absence from the capital; whilst a personal inspection of roads and bridges throughout the country is quite essential for the head of the Department of the

Several years since, the idea was broached in this journal of remodeling the Judiciary of the Klngdom, creating five Judges of the Supreme Court instead of three as at present, one of whom should reside on each of the principal Islands, and upon whom should devolve the duty of periodically visiting, for supervision and instruction, the district justices. Aside from any expectation of shortly seeing such a salutary change brought about in the constitution of the Judiciary, it must be apparent to all that a frequent supervision of and wished him prosperity upon his resuming his promost of the district justices by some one of the judges of the Supreme Court would be highly satisfactory in its results.

The police force is by law appointed by the different Governors of Islands, and is under the general direction and control of the Marshal. Any one who knows the material of which our country policemen are made, will understand that no small portion of the time of the Marshal and his deputies is required to personally visit and instruct them in order to ensure a proper discharge of their duties. With the extension of agricultural operations and the consequent influx of population, the necessity will increase of constant official supervision in this particular.

#### LEGISLATIVE JOTTINGS.

FRIDAY, July 12 .- In consideration of the Appropriation bill, on the item-" For Immigration, \$50,000"-the Hon. Mr. Gibson spoke as follows:

MR. PRESIDENT: A few days since I requested the House to defer the consideration of the appropriation for immigration until I had an opportunity to submit a bill for the reconstruction of the Board of Immigration. I have since then carefully read all the laws on the subject, and after a consultation with the Attorney-General, I am satisfied that we have laws enough, and of sufficient scope to effect all that can be desired. I discover that the regulations of the Board of Immigration can carry with them the "force of law"—the same as the rules of the Board of Health—therefore I have no more law to bring forward on the subject being estimated. forward on the subject, being satisfied that in this mat-ter, as in many others, we have chiefly need of efficient men to carry out laws, rather than more laws.

On this subject of immigration I have felt deeply interested, and have agitated it ever since I came into the terested, and have agitated it ever since I came into the country. I left my home on Lanai in 1872 to visit this city with the sole purpose of awakening public attention to the vital importance of immigration for this archipelago. I strove then to induce men of property and those interested in industrial enterprises to prepare for the demands of the future—to invest means in procuring fresh recruits of productive people, and for this object to form an Immigration Company to operate in conjunction with the Government. But I only succeeded in awakening a partial attention, and failed to arouse any spirit that would contemplate the future, or that would risk anything; and the most that could be accomplished then was the formation of an Immigration Society, merely for the sake of obtaining information.

I have since then omitted no proper occasion to arouse the attention of Hawaiians to induce them to encourage immigration and increase of people in order to establish on a broader and firmer foundation the independence of the nation. For this object I chiefly recommended the incoming of cognate races most likely to assimilate with the attention of Hawaiians to induce them to en the indigenous stock. However, I have not expressed or felt any especial predilection or prejudice about races, and am not devoted to any especial immigration scheme and am not devoted to any especial immigration sceneme as a hobby. But I must say that I would like to see the East India field fairly tried. I do feel that all has not been done that could be done to open up for us an opportunity on this ground. I do especially want to pro-cure more women to equalize the sad disproportion of cure more women to equance the sait disproportion of sexes; and I amglad to be assured by Honorable Ministers (Foreign Affairs and Interior) that no part of the money we propose to vote shall be employed for bringing into the country Chinese males alone. Therefore I recom-mend that we vote liberally to procure some additions of people who will assimilate with our population and stay in the Islands, and therefore I urge upon Hawaiiam mem-

bers to yete the item as in the bill for immigration. The sum of \$50,000 was passed by a large ma-SATURDAY, July 13 .- The bill to amend Section 1419 of the Civil Code-a tinkering of the law re-

lating to absenting from bound service-was indefinitely postponed, by a vote of 19 to 16. MONDAY, July 15 .- Hon. Mr. Gibson, from Committee, reported on a petition from Lahaina, making complaint about the unfairness of the decisions of their Police Magistrate. On the recommendaof their Police Magistrate. On the recommendation of the Committee, the petition was referred to the Attorney-General. The Assembly went into Committee of the Whole, Gov. Kipi in the Chair, Committee of the Whole, Gov. Kipi in the Chair,

and resumed consideration of the Appropriation

bill. The item, for roads and bridges on all the

being none too much for the position and the duties; but it was reduced to \$4,000 by a vote of 20 to 13. The salary of the Registrar of Public Accounts, which has been \$2,000 for several years past, was placed at \$2,500, and very justly. The question of a subsidy for the P. M. S. S. Company's

Tuesday, July 16. - The bill to license the sale of opium passed a final reading by a vote of 18 to 14. A motion to postpone indefinitely the bill to repeal the "Act to Mitigate," was lost, by a vote of 19 to 15. After debate, the vote was reconsidered, and the bill was indefinitely postponed,

boats coming up two motions were made, one to

WEDNESDAY, July 17.—The House went into Committee on the Appropriation bill. The sum of \$25,000 was voted for repairs of Government buildings. On motion of the Minister of the Interior, the sum of \$50,000 was proposed to build a Palace. The Minister said that for this moderate sum a building suitable and creditable to the country could be erected.

Hon. Noble Kaeo opposed this item. The country could not afford a Palace at this time. Hon. Kanealii was in favor of the Palace if the Assembly would reject the item of \$50,000 for im-

Hon. Noble Bishop opposed any appropriation for a Palace at this time. He did not believe that any kind of suitable Palace could be built for the sum mentioned. Some part might be constructed for this sum, and then by and bye \$50,000 more would be wanted for a wing. He thought the King was quite comfortably lodged at this time. Hon. Noble Rhodes approved of the item, and said that the prospects and resources of the country would warrant this expenditure. Hon. Mr. Bickerton approved of the appropria

tion for a Palace, as there were now no suitable chambers for audiences or receptions. Hon. Mr. Smith would support appropriation for Palace if none of the important interests for

by such an expenditure. Hon. Mr. Gibson supported the appropriation. He regarded the monarchy as essential to the welfare of Hawaiians; quoted from the political creed of Wyllie, Judd and Ricord, the early organizers of the Government, that royalty should be main-tained for the welfare and independence of Hawaiians, and the position of their sovereign should not in any way be degraded to the status of a mere chief. The King had no insignia of crown and sceptre. These were regarded as mere baubles in these times; but it was essential to the dignity and security of a throne that it should be upheld by appropriate surroundings of domain and mansion. He had been educated in republican principles. which he cherished and would help to maintain in his own great country; but here, speaking for Hawaiians, he spoke as a humble follower of the notable men of Hawaiian history, and would give his voice to sustain with honor the Hawaiian monarchy. He would vote the sum for the Palace; and he would advise his Hawaiian associates in the Assembly not only to vote for the Palace, but to vote whatever sum it was estimated the revenue could afford for the privy purse and royal state of His Majesty, without debate. He deprecated discussion on such a subject. He spoke for the high

The item of \$50,000 was passed. And the appropriation for the King, \$45,000, was voted without any debate-29 ayes to 9 noes. THURSDAY, July 18 .- The bill for the regulation of licensed vehicles was ordered to be engrossed and read a third time on the 23d, as was a bill to regulate immigration; the bill to light the city of less important character. A new Divorce Act was ordered to be engrossed for a third reading

office and dignity of the throne.

FRIDAY, July 19 .- The morning was occupied in receiving reports of Committees on various bills, and the afternoon was devoted to a discussion of the appropriation for the military, which was finally fixed at \$60,000.

Nawai (w.) et al. vs. Kahalemake. Petition to quiet land title.-R. F. Bickerton for plaintiffs. W. R. Castle for defendant. Case heard in part, and continued in view of a settlement between the parties. July 8. Before Chief Justice Harris. J. Makee vs. H. A. Widemann. Assumpsit.—Hartwell and Davidson for plaintiff. E. Preston for defendant. Case tried by a foreign jury, and Mr. Preston having withdrawn his plea of set off, they returned a verdict, without retiring, for the amount claimed-\$2,073.31 and interest. July 9th. Before Chief Justice Harris. Ah Qui (c.) vs.

Wong Ko (c). Ejectment .- J. M. Davidson for plaintiff. E. Preston and C. Brown for defendant. Tried by a foreign jury, who returned a unanimous verdict for the plaintiff. Damages \$110.50 and costs. July 10. Cecil Brown, executor of J. S. Christie dec.,

vs. J. S. McGrew. Assumpsit.—Tried by a foreign jury, who returned a verdict for the plaintiff. Damages \$1,563.83. J. M. Davidson for plaintiff. A. S. Hartwell July 11. The King vs. F. R. Miller. Smuggling. Appeal .- Case came on for trial, and a jury drawn, when,

after some conversation with the Attorney-General, the defendant's counsel intimated to the Court that as he understood that the forfeiture of the goods would not be enforced, but merely the fine of \$500, he would withdraw the appeal, and the Attorney-General making no objection, the Court granted the motion. J. M. Davidson for

The King vs. Akuma alias Ah Kim (c.) Selling opium -Tried by a foreign jury, who returned a verdict of guilty. The Court sentenced the prisoner to imprisonment at hard labour for two months, and costs \$37.35. R. F. Bickerton for the defendant.

Naomi and Kaweli vs. Kahaolehookano. Assumpsit. Appeal from Intermediary Court.—Tried by a Hawaiian jury, who returned a verdict for the defendant. W. S. Mahelona for the plaintiffs. R. F. Bickerton for the de-Auwae (c.) vs. Aiona (k.) Trespass .- Tried by a mixed jury, who returned a verdict for the plaintiff.
Damages \$130. W. S. Mahelona for plaintiff. J. M. Davidson for defendant.

July 13. W. H. Stone vs. A. Hutchinson.—On a motion to dismiss this suit, on a plea that the facts set forth are identical with those set forth in a complaint upon which judgment was given at the April term of the Supreme Court, the Chief Justice rendered his decision, dismissing the complaint with costs to the defendant. S. B. Dole, for plaintiff, appealed to the full Court. Castle & Hatch for defendant. July 13. Before Mr. Justice Judd. Kaioi et al. vs.

Keala et al. Petition to quiet land title.—This case was heard by the Court and the decision reserved. R. F. Bickerton for plaintiffs; Keliipio, Holokahiki & Kaulukou for defendants Before Harris, C. J., and L. McCully, J. Kaseao vs. Kalama. Libel for divorce on the ground of desertion and adultery.—The Court, after hearing the evidence, granted decree nist. Mahelona, for libellant. Niihue (k) vs. Loaiki (w.) Libel for divorce on the ground of desertion and adultery.—Decree nist granted. L. Kelipio, for libellant.

NOTICE.

LIAVING FORMED CONNECTIONS WITH

addressed the Committee in favor of that sum, as The Medical and Surgical Monopoly at the Queen's Hospital-No. 4.-A Personal Explanation.

In the course of the debate in the Legislative Assembly on the 12th inst., the Hon. Charles R. Bishop took occasion to allude to me in such a manner that, although my name was not mentioned, there could be no doubt in the mind of any one present that I was the person referred to. The remarks of the gentleman being calculated, if not intended, to do me an injury and injustice, and having been made publicly at a time and place where it was impossible for me to answer, I take this opportunity of replying through a channel equally public.

The question being upon the appropriation for the Queen's Hospital, and a proposal having been made that the medical administration of that institution should be under a Board of administration of that institution should be under a Board of three or more physicians, instead of being entirely under one man, as at present, Mr. Bishop, as I am informed, spoke substantially as follows: He said he was perfectly aware of the source from which this movement proceeded; that it emanated from one individual (meaning myself); that the subject had been fully considered by the Trustees of the Hospital, two hearings having been granted me through Committees appointed for that purpose; that the plan proposed by me had been found to be impracticable and inexpedient; and finally he intimated that I was actuated mainly, if not altogether, by a desire to obtain employment and secure a few hundred dollars of Government money for myself, rather than by any wish to benefit the sick or improve the medical service of the Hospital. Of course if Mr. Bishop believes the present system to pital. Of course if Mr. Bishop believes the present system to be the best that can be devised, he has a perfect right to say so and to endeavor to bring others over to his way of thinking; but he has no right to give erroneous impressions concerning the facts of the case or to throw out injurious assertions or insinuations regarding my own purposes or motives. I claim that my motives in this matter are quite as good and quite as honorable as those of the gentleman himself, and I am prepared to furnish practical demonstration of that fact.

As for the paternity of the plan which Hon. W. O. Smith proposed in the Accordance of the plan which Hon. proposed in the Assembly on the day in question, I have no desire to evade any share of the responsibility which belongs to me. In a certain sense, I was the originator of the proposition in question. The desirability of a change in the medical administration of the Hospital was brought to the attention of

the Board of Trustees by me in a communication dated July 19th, 1877. (about one year ago.) Since then I have, from time to time, as opportunity offered, continued to agitate the question, and the gentleman can confidently depend on my continuing to do so in the future. But it was not in pursuance of any arrangement or understanding with myself that the mo-tion for a Board of Physicians was made in the Assembly. I was not even aware that such a motion was to be made. The member who made the motion, and those who advocated it, acted solely on their own sense of what was right and proper without any prompting from me. Their minds may have been influenced in some degree by the articles I have written and published on the subject. If so, it simply shows that the leaven of truth is working in the minds of men, and is likely to which large sums had been voted would be affected

But although this present agitation did in a certain sense originate with myself, it is perfectly well known that serious complaints of the way in which the Hospital is conducted and patients treated existed before I came to this country, and that those complaints had found public expression from respectable and responsible sources. It may well be true that such complaints are not often brought officially to the notice of the Board of Trustees, and apparantly for a very good and sufficient reason. The kind and amount of attention such complaints would be likely to receive at the hands of those gentlemen was well illustrated by the course of the Hon. Noble himself on the occasion referred to. A member of the Legisla-ture (Hon. W. O. Smith), having from his place in the House publicly charged the present Hospital Physician with an act of gross and outrageous cruelty and declared himself prepared to substantiate his charge with full particulars, and a motion having been made to refer the whole matter to a Committee to investigate and report, what did the Hon. Mr. Bishop do? He opposed the notion and voted against it, and it was largely through his meass that it was defeated. If this is a specimen of the spirit which prevails among the Trustees, I should think those gentlemen would be about the last persons to whom any one would think of going with any complaints, however well founded, against the present management of the Hospital. The assertion which I understand the gentleman to have made, to the effect that my proposition had been fully con-sidered by the Trustees, and that I had had two hearings on the subject, is calculated to convey an entirely erroneous im-pression. I would like to reply to this somewhat in detail, but time and space forbid. It is true that two Committees were appointed. The first Committee refused to meet or confer with me at al, and a respectfully written communication, which I addressed them through one of their own number, requested the opportunity of personally appearing before them, was deemed unworthy even the poor courtesy of having its receipt acknowledged. I was not aware that the Committee had ever met or considered the subject until, to my surprise, I learned that their report had been made up, presented to the Board of Trustees, and accepted. The substance of their report, which was contained in about fifteen lines of manuscript, was that they had CONFERRED WITH DR. McKIBBIN, and Honolulu with gas; and several other bills of a IN THE ABSENCE OF ANY COMPLAINT, saw no reason for making any change. A second Committee, which was appointed at my request, did, after waiting nearly three months, grant nterview, but the case was, to my mind, so evidently prejudged that I considered the whole proceeding, at least so far as the Committee were concerned, as a simple far as the Committee were concerned, as a simple farce, played off in the interest of the present Hospital Physi-cian. My reasons for this opinion I hope to give more in de-tail at some future time. I think they will satisfy most im-partial people that I was quite right in my conclusion.

I return now, in conclusion, to my own motives in this busireturn new, in conclusion, to my own motives in this busi-ness. Ever were it true (which it is not) that my only inter-est in the Hospital centered in the chance of getting a few hun-dred dollars of salary out of the institution, I fail to see that the fact would in any way affect the merits of the question. I would like the Hon, member to explain how or why it is any more improper or unprofessional for one physician to desire an appointment for the sake of the salary, than it is for another o hold on to the offices he already has, for the same reason If he thinks I only value a medical appointment for the sake of the salary, for what reason does he think Dr. McKibbin is so anxious to obtain and retain his three or four salaried medcal offices under this Government? Does he give his time and attention to a medical supervision of the registered pros titutes of Honolulu, for instance, out of pure and disinterested love of science and humanity? If the fact that I may possibly be benefited by a change, renders my statements and arguments on the subject of n value, why does not the equally conspicuous fact that other gentlemen's interests are involved in maintaining the present order of things, render their opinions and statements equally worthless? The fact is, that all this talk about my wanting ar office and being actuated by selfish considerations, of which there has been a great deal in certain quarters, is simply "bosh," and I desire to deal with it once and for all.

It is irrelevant, impertinent, and untrue. It is simply an attempt on the part of the friends of the present system to dodge the real issue by throwing a cloud of suspicion over the motives of a person whom they cannot otherwise answer But that there may be no possible excuse for any misunder-standing on this point hereafter, and to show that I have not been actuated by a mercenary and selfish desire to drive a brother practitioner from the position he holds for the purpose of securing his office and salary for myself, I hereby make the It the Board of Trustees will divide the practice of the Hospital among any three or more physicians, of whom I shall be one, I shall not only be willing, but glad, to give my share of

with me in the work shall do the same. An excellent opportunity is here offered to Dr. McKibbin and thers to demonstrate their disinterested devotion to the study of their profession and the genuineness of their aloha for the native Hawaiians as well. At the same time, there is presented to the Board of Trustees a chance to exercise economy, of which I doubt not they will be glad to avail themselves. In undertaking this work, I realize perfectly well that I will be at a great disadvantage as compared with other practitioners, some of whom have grown rich out of the practice and patronage of this place and certain others of whom are already in the enjoyment of salaries from the Government, and who therefore can afford much better than I can to serve the Hospital without pay. Nevertheless, the offer is made in perfect sincerity and good faith, and my only desire in the matter is that it may be accepted.

CHARLES T. RODGERS, M. D.

Honolule, July 18th, 1877.

### WATER PIPE, WATER PIPE, WATER PIPE

THE UNDERSIGNED HAVING BEEN APPOINTED AGENTS FOR THESE ISLANDS FOR THE

### CELEBRATED WYCKOFF WOOD PIPI

Are now prepared to furnish Planters and others with this article in sizes ranging from 14 inches to 8 inches, and of a strength to resist any pressure that Iron Pipe Will stand.

In offering this Pipe for sale the following advantages are claimed for it over any Pipe in the world First-It is the Cheapest Good Pipe. Second-It is the most durable of all Pipes-practically imperishable. Third-It neither expands nor contracts and corrosion is impossible. Fourth-It is more easily laid-can be tapped with an ordinary auger. Fifth-It is more easily handled-lighter in weight and perfectly tight.

Sixth-It is not liable to get out of order. Seventh-When used for water it neither tastes of or can be affected by chemical ingredients. Thousands of Miles of this Pipe have been laid down in the Eastern States and on the Pacific Coast, and in every instance it has given entire satisfaction, and flattering testimonials to its merit have been given to the company by parties who have used it.

For further particulars and prices, apply to jul 3m
